

DRIFT SECTIONAL SOFA

Drifting was born in the mountains of Japan as a way to race down twisty mountain roads and has now become a global event with competitions held around the world. The Drift Sectional Sofa was designed to be low, wide and sleek reflecting the embodiment of the awesome Drift cars. Each customised to be as low as possible to increase handling performance, as wide as possible for stability through corners, and as sleek as possible with ground effects and spoilers to create the optimal aerodynamics to ensure the machine drifts and slides through every corner with precision and speed.

LHF Corner + 1S + RHF Corner

LHF/RHF CORNER

L: 57.1" / 145 cm
